Subject: March 26 visit to Lister Ave. Site

Carol - there are no objections to you all going to the Diamond Alkali site after the community meeting. The administrator will depart ICC at 2:15, arrive at the site at 2:30, stay there for 15 minutes and then leave promptly at 2:45 to catch a train from Newark Penn Station. Anyone going to the site must travel in their own vehicle.

See you tomorrow at noon.
